The camp is also equipped with a homely and communal dining and bar area.

The tents are covered with Bedouin-style fly-sheets, offering guests protection from Botswana's weather conditions and fashioning the camp with a distinctive nomadic appearance & atmosphere. Listen to the remarkable night sounds of the bush from the comfort of a safari tent equipped with twin beds, soft pillows and duvets. Doors and windows are fitted with mosquito screening and insect repellent is provided.

To limit the camp's impact on the environment yet still afford the necessary comfort in the bush, the en-suite bathrooms are equipped with flush toilets and hot bucket showers. Please note that the camp is solar powered, and cameras and mobile phones can be charged in the communal areas should the power levels allow it. At night the paths to your tents will be illuminated by lanterns and your guide will escort you back to the privacy of your tent.

This large area is renowned for its concentration of mammals and it is not unusual to see many different types of wildlife during just one game drive. Game viewing is seasonal; depending on the time of the year you may see different species in different areas. The best time for game viewing is the end of the dry season or spring from August to November. During this season, in order for us to offer the best game viewing possible, extra driving may be required due to the animals migrating closer to the river.
